Defoamer Concentrate

CLASSIFICATION:

- Silicone based defoamer

PACKAGING:

Jug	Pail	Drum
4L	*20L*	*210L*

DESCRIPTION:

- **Defoamer Concentrate** is a concentrated, powerful silicone based defoamer.
- **Defoamer Concentrate** is ideal for use to eliminate the foam in vacuum recovery tanks of autoscrubbers, wet vacs, and carpet extractors.
- Unlike many competitor defoamers's, **Defoamer Concentrate** is stable in its concentrated form and *will not separate*.

CHEMICAL AND PHYSICAL PROPERTIES:

- Appearance — Opaque white liquid
- Odour — Mild characteristic
- pH, Concentrate — 8.5-9.5
- pH, 1:80 — 6-8
- Specific Gravity — 1.00
- Viscosity — 40-80 cps

USE DIRECTIONS:

- ***To defoam vacuum recovery tanks of autoscrubbers, wet vacs, carpet extractors:*** Add 1–2 oz (30-60 mL) of **Defoamer Concentrate** directly to the vacuum recovery tank. Alternatively, **Defoamer Concentrate** may be vacuumed through the wet vacuum recovery hoses to coat the entire wet vacuum recovery system.

See Material Safety Data Sheet for proper handling and safety instructions.
