
Limex

CLASSIFICATION:

- Dilutable lime, scale and stain remover

PACKAGING:

Jug	Pail	Drum
4L	20L	210L

DESCRIPTION:

- **Limex** is a concentrated, dilutable cleaner that quickly attacks and removes hard water scale and stains from stainless steel, glass, ceramics. Leaves treated surfaces smooth and scale free.
- **Limex** is ideal for use as a descaler from a variety of kitchen type surfaces including industrial dishwashers, coffee pots, pans, and cooking equipment.
- **Limex** is extremely low foaming.

CHEMICAL AND PHYSICAL PROPERTIES:

- Appearance Clear green liquid
- Odour Mild acid
- pH, Concentrate 1-3
- pH, 1:10 2-4
- Specific Gravity 1.15
- Viscosity Less than 20 cps

USE DIRECTIONS:

- **Descaling Industrial Warewash Machines:** Spray on full strength to hard to reach areas. Add 1 litre of product concentrate to rinse water and circulate until clean. Flush with clean potable water.
- **Coffee Pots and Urns:** Dilute 1:20 – 1:80. Swab interior well to clean. Rinse well with clean potable water after use. For drip type coffee makers, the diluted product may be put into the coffee maker sump and cycled though. Follow with a “brew” of clean potable water to rinse.
- **Glassware:** Make up a 1:160 solution and soak glassware for 5 minutes. Scrub to clean. Rinse well with clean potable water.

- ***Rinse well with clean potable water after use on all food contact surfaces.***
- ***Not recommended for use on galvanized or anodized aluminum surfaces.***

See Material Safety Data Sheet for proper handling and safety instructions.
