

Repel

CLASSIFICATION:

- Penetrating sealer / impregnator for stone surfaces

PACKAGING:

Jug	Pail	Drum
4L	18.9L	210L

DESCRIPTION:

- Penetrating sealer for porous hard surfaces such as marble, granite, porous ceramic tile, brick and grout.
- Not a coating, does not form a film on the surface. Does not change the appearance of the substrate. Allows natural stone surfaces to “breathe.”
- Provides excellent protection against oil, water, soils and stains.
- For indoor and outdoor use.
- Easy to apply, water based product quick clean up.

CHEMICAL AND PHYSICAL PROPERTIES:

- | | |
|--------------------|--------------------|
| • Appearance | Clear amber liquid |
| • Odour | Mild |
| • Specific Gravity | 1.03 |
| • Viscosity | Less than 20 cps |

USE DIRECTIONS:

- Thoroughly clean surface. Remove any coating if present.
- Rinse well.
- Apply Repel with clean mop, roller for large continuous areas. May be applied with a clean lint free cloth for smaller smooth substrates. Grout lines in smaller areas may be treated with a foam brush. To treat grouting for larger floor areas and not the tile itself, apply Repel with a clean mop and squeegee off tile surface with a soft window squeegee into next grout area.
- Apply one coat and let sit approximately 30 minutes to allow to soak into substrate. If Repel has soaked into surface, repeat application.
- Remove any residual sealer with a clean towel.
- For tiles, granite, marble floors, buff with a clean dry white pad or bonnet buff pad to remove any residual product.

See Material Safety Data Sheet for proper handling and safety instructions.
